2022

Welcome to our 2022 catalogue! We've spent the last year working harder on new products than ever before.

In Bristol, our specialist games design studio has been busy creating a new world-class games range.

At our London HQ, our Escape Room developers are setting new boundaries and redefining the puzzle market.

And we have had more talented, hard-working people join us than ever before. From London to Chicago, Hong Kong to mainland China, and Bristol to Fareham, our ever-strengthening team remains our secret source.

As well as, of course, our wonderful customers. Thank you for all of your support over the recent (turbulent!) months and years. We really do appreciate it.

We can't wait to show you our 2022 collection and hope you enjoy playing our new games and puzzles!

Einstein

In 1905, Einstein's extraordinary thinking and unique perspective changed the way we view space, time, and energy. Most people would know his name, recognise his image and associate him with superior intelligence. So, what better muse to inspire a collection of puzzles ... and what better way to test our own brainpower than to try to solve them?
